## What does the CVI do?

The Cancer Vaccine Institute (CVI) is the only national charity in the UK exclusively funding research into cancer vaccines and immunotherapy. Cancer vaccines have the potential to increase survival rates and improve patients' quality of life. They could even work for advanced cancers for which there is currently no effective treatment.

All of the Trustees at the CVI have been touched by cancer and are therefore committed and determined to have a significant impact on providing a new and more effective form of treatment and make a real difference to the lives of patients and their loved ones.

Research is currently undertaken by Professor Dalglish and his team at St George's University Hospital, London. A Scientific Advisory Board is responsible for independently assessing research projects.

**We need to raise at least £600,000 each year.**

### Peter Cook, a patient

"In 2001 I was diagnosed with malignant melanoma which later spread to my brain. My treatment options were limited and I wanted to avoid brain radiotherapy at all costs so decided to try the dendritic cell cancer vaccine. Whilst the demons never disappear, I have had no further relapses, and live a normal active life - I even completed the London Marathon and was fortunate enough to marry."

Cancer Vaccine Institute (CVI) is a Registered Charity (No 1080343) and a Company Limited by Guarantee registered in England (No 3884777). Registered address: Haysmacintyre, Fairfax house, 15 Fulwood Place, London WC1V 6AY

# Never Forget Tribute Funds

***A special way to remember***

## Never Forget Tribute Funds

Sadly, due to the nature of our work we receive a large number of in-memoriam donations. Many families wish to set up a more permanent memorial to their loved one. The CVI has created Never Forget Tribute Funds offering the chance to honour and remember the life of someone special and at the same time support the pioneering research work of the CVI.

### How does it work?

The Fund is named after the person that has died, for example The Peter Jones Tribute Fund. Anyone can make their own gesture of remembrance to the fund in whatever way feels right for them as far into the future as they wish. You may wish to keep it a private gesture of your own and choose to make a regular donation on a special anniversary or perhaps undertake some fundraising. Or you may wish to tell relatives and friends about it. Each contribution will be allocated to the growing fund. The CVI will acknowledge all gifts. As creator of the Fund we will inform you of any gifts and provide regular updates on the Fund's total.

### Can income that has already been raised go to the Fund?

Any money that has already been donated or raised in memory of your loved one can be re-allocated to the Tribute Fund.

### Setting up your Fund on the CVI website?

You may wish to set up your fund as a page on our website. Each fund is allocated a unique page which will display an up to date total as well as, should you wish it, a message and photo. Anyone can access the page to see how much has been raised or to make a contribution securely on-line by donating or fundraising. We will send you a unique link which you could share amongst your family and friends.

*transforming the future of cancer treatment*

### How do I set one up?

It couldn't be simpler. Just complete the registration form, return it to us and we will do the rest. We'll send everything you need to start growing the fund.

### Growing a Fund

We will inform you once the Fund is set up and should you choose to you can then let family and friends know about it. If required we can send you announcement cards, donation forms and fundraising packs to distribute or we can even do this on your behalf. The longer a fund exists, the more it can grow, bringing hope to others affected by cancer whilst honouring the memory of your loved one.
